

I didn't want to spend that much time on this payload, not really worth it. It has the KEY embedded within the payload. Key and userID are mapped. I just wanted to have some basic info on this payload.

HARDCODED IDENTIFICATION

➔ JavpuaI3xVVylKaptMXUyHcuY3P6Mw25EhVJUkaT

```

@echo off
:try
del "C:\Users\foo\Desktop\DATASTOP.exe"
if exist "C:\Users\foo\Desktop\DATASTOP.exe" goto try
del "C:\Users\foo\AppData\Local\Temp\delf.bat"
  
```
